

Significant Savings on Prescriptions

ElectRX provides prescription drugs through a personal importation program

Program Highlights

- Significant cost savings
- Shipped directly from Tier 1 Countries including Canada, United Kingdom, Australia and New Zealand
- Same brand names available in the U.S.
- \$0 Co-pay on ElectRX Formulary List

The program offers significant discounts on certain high cost medications without sacrificing quality.

Save money on certain brand name prescription drugs through the ElectRX International Mail Order Program

Also known as Personal Importation or PI, you can order your brand name drugs from Canada, New Zealand, Australia and England using the same "brick and mortar" pharmacies that people in these countries use for their medications. Plan Members will have a \$0 co-pay (FREE!) on all Brand drugs on the Elect Rx Formulary.

Here is how you can begin using the program

1 On the back of this document is a list of brand name prescription drugs that are offered through the Elect Rx Personal Importation Program (PI). Review this list and see if any of the medications you are currently taking can be filled through the Personal Importation (PI) Program.

We are constantly updating this list. Call Customer Service if you do not see your drug listed. You can order up to a 90-day supply of any brand name medication that is eligible for dispensing through this program.

2 Have your Physician prepare a prescription with 3 refills and FAX it to the Elect Rx Toll Free Number at (833) 353-2897. Again, you have a \$0 co-pay on your prescription and subsequent refills. You will receive an automated reminder notification of a pending renewal/refill.

Shipping takes 5-15 business days from the date of completed requirements Tip: Have a 30-day supply on hand to allow for plenty of delivery time.

855-353-2879
