

Skip the line.

Get your prescriptions shipped right to your door.

Rather than making a trip out to the pharmacy, you can get any available prescription at the health center shipped directly to you at no extra cost. When it's time to refill, schedule an appointment or contact your care team to discuss next steps. Labs may be required for a refill. Switch today and experience the difference. Discuss with your provider at your next visit.

Why switch to prescription delivery?

Personalized care

Your care team will get to know you and provide personal consultations. They'll help explain and discuss drug interactions, drug therapies, medication profiles and more.

Synced prescriptions

If you have multiple prescriptions, we'll consolidate them into a single consistent refill. That way it's all mailed to you in one shipment.

Convenience

Instead of driving to your health center every time you need to fill a prescription, stay home and let your prescriptions come to you.

Cost savings

Rather than scheduling an appointment every 90 days, save time & money by getting a 90-day supply of your medication delivered right to your door. You can even get refills for up to 1 year.

Call your wellness center or talk to your provider to get started.
(407) 269-8531

Who can use these services?
