

Skip the line. Get your prescriptions shipped right to your door.

Prescription delivery is one more way we're bringing you a better healthcare experience. Simply schedule an appointment with your provider 14 days before you run out of your medications, discuss your health needs and we'll gladly ship your medications to you at no extra cost. We'll also take a proactive and personal approach to your care by reaching out when it's time to refill, ensuring you only receive the medications you need, when you need them.

Why switch to prescription delivery?

Personalized care

Your providers at OKC Care Employee Medical Center are dedicated to providing the quality of care you deserve. As your healthcare advocate, your providers are there to support and guide you, no matter where you are on your wellness journey. They will take time to listen to you and focus on your long-term health and wellbeing.

Synced prescriptions

If you have multiple prescriptions, we'll consolidate them into a single consistent refill. That way it's all mailed to you in one shipment.

Convenience

Instead of driving to your local pharmacy every time you need to fill a prescription, stay home and let your prescriptions come to you.

Cost savings

Prescription delivery will save you money with up to 180 day fills and by leveraging generic medications.
