

# Connect your healthcare accounts in My Premise Health.

At the Greenheck Group Wellness Center, we're making your care more efficient and integrated. The member portal, My Premise Health, allows you to connect your other healthcare accounts so you can access all your health information in one place.\*

To see a list of participating organizations, visit [www.mychart.org/LoginSignup](http://www.mychart.org/LoginSignup).

For general questions about My Premise Health, read the [FAQs](#) at [mypremisehealth.com](http://mypremisehealth.com).

## It's easy to link your accounts – here's how.

### Step 1

Sign in to your [My Premise Health](#) account and select the menu icon with three stacked lines.

### Step 2

Under "Sharing" select "Link My Accounts."

### Step 3

Click "Get Started" to link your My Premise Health account to another MyChart account using MyChart Central.

### Step 4

Click "I already have a MyChart Central account." If not, agree to the terms and conditions and then click "Sign up for MyChart Central" and follow the instructions on your screen.

### Step 5

You will be prompted to sign in using either your Epic ID or an alternative log in method

### Step 6

Once a link is successful, you will see your other accounts under the "Linked Accounts" tab.

## Why should I connect my accounts?

You can easily view all your health information within the [My Premise Health](#) app, including known allergies or conditions, test results, medications and more. This allows for a seamless digital experience if you receive care at the Greenheck Group Wellness Center and other participating healthcare organizations.

**\*Note:** This is not how your medical records are shared. Depending on the organization, your Premise provider may have access to your health information to ensure the quality and continuity of your care.
